## Observations... From Around Town

(BY JAY WHOZIT)

CIVIC PRIDE—these two words as defined by Webster would mean something like this: A proper sense of personal dignity and worth to our community and its people; to be justly proud of the fact that we are participants in the activities and the upbuilding of the city in which we live, and to strive to attain for that city the acme of excellence—that to us is civic pride; something which the citizens of our town seem to be lacking, not only in quality but in quantity as well. . . . for further information on the above, read the advertisement elsewhere in this issue, paid for personally by Howard W. LeFrisser, president of the Chamber of Commerce. . . . The Stanislaus Band concert given on Monday night of this week was a grand success and our boys are off to Brother Romuald, director, and his boys for such as well performance. . . . Bay St. Louis was in the national sports news last week, when Round Coughlin, nationally-known sports writer made mention in his column about Richard "Dickie" Curran, Stanislaus boxing champion, as being a successful member of the boxing team of the University of Wisconsin. . . . we have also been informed that "Dickie" will, in the very near future, be given a tryout for a berth on the U. S. Olympic team swell going, "Dickie" and we're keeping our fingers crossed for you. . . . Sunday will be the first day of Spring, and what a welcome it will get after a hard winter. . . . in spring they say, "a young man's fancy turns to love," and very true that is but going also means mowing lawns, planting gardens, painting and house cleaning, and many other things. . . . the state boxing tournament held at Bay High gym last week brought the largest attendance ever to attend a sports performance here before—more than 5,000 persons witnessed the boxing matches the three nights, and all agreed they had more than received their money's worth. . . . Stanislaus won two awards, the team trophy and the lightweight trophy, with Biloxi winning the heavyweight trophy, with individual awards being given to participant, win, lose or draw. . . . pretty soon now there will be another automobile dealer in Bay St. Louis and if it's a new Pontiac you've been waiting for you'll be able to get it from Pete Porter at Porter's Service Station on Highway 90 near the highway bridge. . . . a meeting will be held at the City Hall on April 10th to elect a temporary Democratic Executive Committee to conduct the Municipal election in July when Bay St. Louis will again elect a Mayor and two Commissioners. . . . yes, kiddies, you can get out that Easter basket and get your nest ready, because for the first time in many years that ole Easter bunny can fill it with chocolate and sugar eggs and rabbits, and don't think we won't be looking for an Easter nest ourselves.

## Father Leo F. Fahey Named Co-Adjutor Bishop Diocese Of Baker City, Oregon

Native of Bay St. Louis—Ordained Here by Bishop Gerow  
On May 29th, 1926—Served As Assistant Pastor At Our  
Lady of the Gulf—Now Pastor at Hattiesburg

REV. LEO F. FAHEY

Rev. Father Leo F. Fahey, Pastor of the Sacred Heart Church, Hattiesburg, Miss., has been named Co-Adjutor Bishop of the Diocese of Baker City, Oregon, with the right of succession, to the most Reverend Bishop Joseph McGrath. Father Fahey was born in Bay St. Louis on July 1st, 1898, the son of John B. and Lena D. Fahey. He began his studies for the priesthood at St. Benedict, Covington, La., from there to Kendrick Seminary, St. Louis, and thence to the North American College in Rome. Following the death of his sister, Pearl, he returned to the Sulpician Seminary and the Catholic University in Washington, D. C. He was ordained in the Church of Our Lady of the Gulf, in Bay St. Louis, on May 29th, 1926, by the Most Reverend Bishop Richard O. Gerow, and was the first priest to be ordained by Bishop Gerow. Immediately following his ordination he was given his orders as an assistant to his former Pastor, Rt. Rev. Monsignor Andrew J. Gmelch, in his home Parish of Bay St. Louis, an unusual assignment for a young priest. He remained here as an assistant for 15 years. On June 10th, 1941, he was named Pastor of the Sacred Heart Church, Hattiesburg, Miss., and has served in that capacity since that time. Father Fahey is Diocesan Director of Vocations, a Judge of the Matrimonial Court for the Diocese, a member of the Board of the Junior Clergy Examiners, and is Executive Vice President of the Fund for infirm priests. At the time that news of this appointment as Bishop was received Father Fahey was conducting a retreat in Jackson. We in Bay St. Louis are both happy and sorry that he has to leave us.

## KNIGHTS OF COLUMBUS NEWS

Pere LeDuc Council Knights of Columbus held their regular meeting Monday night, March 15. Plans were made for taking candidates to Gulfport next month for the exemplification of the first degrees of the order. A very interesting prepared address was given by Robert L. Camors on the "Marshall Plan." Mr. Camors has made a thorough study of this subject and presented the main points of it with explanations thereby making the whole plan easily understood. The local council will hold a benefit bingo party for the American Red Cross at the Knights of Columbus Home on Main Street. The date for this occasion will be set by Ed. Arceneaux, Chairman of the Red Cross drive for Hancock County. The Independent Basketball Tournament will be sponsored jointly by the Knights of Columbus, The American Legion and the Hancock County Athletic Association. This decision was reached recently at a meeting of committees representing these three organizations. It was thought that by the three organizations working together no one organization would be over-burdened with all the details required in putting on this affair. They stated that after careful study it was their opinion that the most urgent need of the community was an oxygen tent for the Kings Daughters Hospital which would cost approximately \$600.00. It was therefore decided that the proceeds from this tournament be donated to the local hospital up to the amount sufficient to purchase this equipment if this amount is realized. Then, if more funds are taken in than is necessary to purchase the oxygen tent, the balance will be divided in a proportion as agreed upon by the three organizations. The Knights of Columbus has pledged their share to Father Martin's fund for building a chapel at State College, Miss., the American Legion for their building fund and the Hancock Athletic Association for the many incidentals necessary to improve their tournament. The basketball tournament will be held at Bay High gym, March 31, April 1, 2, and 3, with eighteen teams participating and Grand Knight Wilmer Thibaux states that in addition to the pleasure of seeing some of the best basketball games played you will also be contributing to a very worthy cause. Little Vicky Lou Jacobi suffers eye injury. Little Vicky Lou Jacobi, 22 months old daughter of Mr. and Mrs. Lawrence Jacobi, suffered a severe injury of the right eye when she fell from the running board of a parked car. The child was playing with a glass rabbit and the ear of the toy pierced the eye when she fell. She was taken to the Memorial Hospital at Gulfport for treatment. It is feared that she may lose the sight in this eye. St. Joseph Academy Honor Roll. Seniors—Gray Gex, Gwen Hartman, Gloria Martin. Juniors—Charla Burns, Patsy Gex. Sophomores—Sheila Mitchell, Beryl Rodriguez, Lusia Benigno, Louise Piazza, Frances Sholtes, Maria Teresa Garcia, Elma Abimeri, Nina Guillen. ## St. Stanislaus Band Scores Big Hit In Concert

The Saint Stanislaus Band, under the direction of Brother Romuald, presented one of the finest and most interesting programs that could be expected from a group of musicians. Playing before a capacity audience, the band kept its listeners on edge throughout the entire program. A bit of humor and comedy, interspersed with music of the serious type, brought the audience into modes of attentive seriousness. Those who attended the concert, even the youngsters, remarked how much they enjoyed the program and that when the last number was over, they wished for more.

The members of the Stanislaus

BROTHER ROMUALD, S. C.

Band are students from the sixth grade to the twelfth grade. It is almost incredible what can be accomplished with a group of youngsters. These young men musicians are to be highly commended on their artistic performance, in which intonation, balance, dynamic contrasts and phrasing were outstanding. The highlights on the program included the clarinet solo, "Interlude," played by Norman Carnovale. This student clarinetist performed with the techniques, tone quality and interpretation of a professional. Norman is a sophomore in high school. Jack Drescher brought the kiddies to their feet with his rendition of "Raddy Trombone." Jack is also a sophomore. The sax quartet played by Norman Carnovale, Dominick White, Marion Wolfe and Clarence Hava, was outstanding in tone, balance and nuances. Last, but surely not least, was the violin Concerto in D Minor executed by James Crawford, alias Samy Dorfwarsky. Jay did a marvelous job in bow technique and strange showmanship considering the fact that, up to two weeks before the concert, he had never had a violin in his hands. Jay is drum major of the band, is studying flute and is a freshman in high school. Of course, it would not be fair to omit Buddy Lughlin who showed fine talent for a comedian in his role of leading the Glee Club in the Irish songs. The Saint Stanislaus Band wishes to express their appreciation to all those who gave their support for the success of the concert, those who attended the concert, those who bought tickets but could not attend the program, and to the business firms who gave complimentary ads for the programs.

## Mrs. W. H. Russeil Elected Delegate To Methodist Conference

The Women's Society of Christian Service held their bi-weekly meeting on Tuesday afternoon at the home of Mrs. A. C. Exuico. At this meeting Mrs. W. H. Russeil was elected a delegate to the Methodist Conference to be held in Jackson. A donation was made to the Red Cross as has been the custom of the society each year. The Worship Service was led by Miss Florence Dixon and participating in the discussion were Mrs. Carl Smith, Mrs. W. W. James, Mrs. D. T. Ryce and Mrs. C. M. Shipp. The Christian Highways in Japan was the topic for discussion. Co-hostesses were Mrs. H. K. Holderith, Mrs. Sterling Sharp, Mrs. E. Hannah and Miss Josie Miller. Refreshments were served following the meeting.

## Meeting at Bay High On Summer Camp

There will be a meeting on Monday night, March 22nd, at 7:30 P. M., at the Bay High School auditorium of all parents and children who are interested in summer camp. Mr. and Mrs. C. J. Thayer of Baton Rouge, La., have been invited to be present and to discuss the benefits of camping, and they will show films of their summer camp. Mr. Thayer is President of the Louisiana Camping Association and is Director of Camp Namequoit, Orleans, Mass., a nautical camp for boys. Mr. Thayer is a graduate of Louisiana College and Harvard University. Mrs. Thayer is Co-Director and Dietician. Ellis Guidry, Coach of Bay High, has been Senior Camp Director at Camp Namequoit for the past four years.

## Entomology Specialist To Give Demonstration At Kiln School

Miss Annie Lois May, County Home Demonstration Agent, announces that L. C. Murphree, Entomology Specialist will give a demonstration on control of Vegetable and Flower insects at Kiln High School on Wednesday, March 24th at 2 o'clock p. m. Miss May is asking that all who are interested in gardening and the growing of flowers attend. The meeting is scheduled for the Kiln as it will bring it to a more central location for the convenience of many who wish to attend from the upper section of the County.

## Dr. S. T. Robbins Guest Speaker At Father's Night Program

Dr. S. T. Robbins, executive secretary Mississippi Social Hygiene Association, was guest speaker at the Father's Night program at Bay High on Tuesday evening. Dr. Robbins spoke on Adolescence and his talk was well received. At the close many questions were asked and an interesting discussion was held. This was the third of a series of lectures under the direction of the P. T. A. on the general theme "Education for Responsible Parenthood." Following this interesting talk refreshments were served and a social hour was held.

## CANDIDATE FOR COMMISSIONER

SYLVAN J. LADNER, JR.

The Sea Coast Echo is authorized to announce the candidacy of Sylvan J. Ladner, Jr., for the office of Commissioner of the City of Bay St. Louis, subject to the Democratic Primary to be held in the City of Bay St. Louis for the nomination of City Officers. Mr. Ladner's announcement follows: To the Qualified Electors of Bay St. Louis, Miss. Please accept this as my official announcement of my candidacy for the office of Commissioner of the Commission Council of the City of Bay St. Louis, Miss. I am 32 years old and married. Educated in the City Schools and later at St. Stanislaus College from which institution I was graduated in 1934. I am the son of the late Sylvan J. Ladner, Sr., who served the City of Bay St. Louis, Miss., for 17 years, 12 years as Secretary and 5 years as Commissioner of Public Utilities. I have been employed by the Louisville and Nashville Railroad Company for 7 1/2 years as Clerk-Operator. I think this experience helps qualify me for the job as Commissioner. Briefly I state I shall favor the following: 1. Reduce the salary of the Commissioners. The present salary of \$300.00 per month has been too much of a burden to the taxpayers. 2. Keeping Our City out of debt. 3. Reduce Taxes. 4. Construct a modern hospital, playground for our children, a sand beach, better drainage and paved streets. If I am elected you may be assured that my office will receive the service and attention that you would expect from a capable and efficient public official. I solicit the Vote and Influence of every lady and gentleman and I hope to get around and see each and everyone. Cordially, SYLVAN J. LADNER, JR.

## Mass Meeting In Interest Of Seawall Legislation Held Sunday

Senator Cornelius Ladner Offers Assistance—Introduces  
Bill As Requested

Mrs. Eugene Mogalgab, President of the Bay-Waveland Garden Club called a mass meeting on last Sunday afternoon at the Courthouse relative to aid for the reconstruction of the Sea Wall and Beach Road. So overwhelming was the response that the Chamber of Commerce and the Rotary Club to cooperate with her organization, and Howard W. LeTissier, President of the Chamber of Commerce and Octave W. Delph, President of the Rotary Club acted as Co-Chairmen. In a bill presented to the Legislature to allow counties bordering on the Gulf of Mexico to issue bonds, to repair their seawall, and who were to receive aid from the federal government, the name of Hancock County was omitted from the bill, and only Jackson and Harrison Counties were to be given authority to issue the bonds, to match certain federal funds. The object of the meeting was to ask State Senator Cornelius J. Ladner, to support the Bill and to have the name of Hancock County placed in the bill. Mr. Ladner was present at the meeting and promised his aid. On Wednesday Mr. Ladner introduced a similar bill in the Senate, which will give the County the right to issue bonds in the event it can secure federal aid.

## Red Cross Drive Lagging; Less Than Half Of Quota Raised

Did you know that Hancock County, has not reach the halfway mark on its 1948 Red Cross Drive? Up to this time only \$2253.15 has been collected, and the quota is \$5047.00. We still have a long way to go. E. J. Arceneaux the Hancock County Drive Chairman is issuing an appeal to all workers of make a renewed effort to recach their quota and to bring the drive to a successful conclusion. Mr. Arceneaux praised the efforts of his co-workers, and said that he felt confident that the people of the County as heretofore would meet the challenge and exceed the quota by the end of the month. He also urged the cooperation of the public and asked that all who have not as yet made their contribution please do so immediately, either through a member of the committee or directly to him, or to Red Cross headquarters. Again we wish to tell the people of the County, that a contribution to the Red Cross may mean the aid to some person in your own community. The greater portion of the amount collected is for local use, and is dispensed under the direction of the Local Chapter of the American Red Cross. Again may we say, that we know not, when we may again have a disaster similar to September 19th, 1947. We needed the Red Cross at that time. We may need them again. The only community that has, as of this date exceeded their quota is Clermont Harbor.

## Mississippians Called On To Grow "Freedom Gardens" In 1948

Mississippi gardeners have been called on to grow 450 thousand "Freedom Gardens" in 1948. To help furnish an adequate diet for Mississippians and to help feed war devastated countries. You are being counted on to grow one of these gardens, whether a small "pocket size" garden or a larger family garden. A good small backyard garden should furnish \$25 to \$50 worth of fresh vegetables, while a larger family size garden should be worth \$100 to \$150 to the owners.

By starting the garden early and making several plantings of your favorite vegetable, one can have fresh vegetables 9 to 10 months each year. If a garden is well planned, one can have 3 to 4 fresh vegetables in the garden each month of the year.

Make two or more plantings of the following vegetables: radish, bush snap beans, bush lima beans, lettuce, beets, carrots, corn, mustard, field peas and tomatoes. Make plantings 10 days apart and have tender vegetables over a longer period of time.

**WHAT MAY BE PLANTED**  
Gardening time is here and every gardener wants to succeed. Here are the essentials: a good well-drained fertile plot, fresh seed, adequate fertilizer, healthy vigorous plants, correct and successive plantings, clean cultivation, and control of pests and plant diseases.

Make your selection from the following list for your spring and summer garden.

Bush Snap Beans, Onions, Pole snap beans, Peas, garden; Bush Lima Beans, Pepper, Beets, Potatoes, cabbage, Radish, Carrots, Spinach, Collards, Squash, Corn, Tomatoes, Cucumbers, Turnip, Eggplant, Swiss Chard, Leaf Lettuce, New Zealand Spinach, Head Lettuce, Tendergreens, Mustard, Okra.

Your local agricultural agents will be glad to furnish you with a

list of varieties, also your seedsmen will advise with you on making your selection.

### FERTILIZERS

Gardening should not be attempted without adequate fertilizer both barnyard and commercial. Most plants are heavy feeders and require a continuous growth for best quality.

Apply adequate rotted barnyard manure over the garden plot before plowing. Ten days before planting apply 5 to 10 lbs. of a balanced commercial fertilizer such as 5-10-5 per 100 feet of row in the row. When plants are 3 to 4 inches tall, side-dress with 1 to 3 pounds of a nitrogen fertilizer per 100 feet of row. When setting tomato, pepper, cabbage, and eggplant plants, pour 1 teaspoonful of "Starter Solution" around each plant. This is made by dissolving 1/4 pound of 5-10-5 fertilizer in 2 1/2 gallons of water.

### TOOLS

Fine tools don't make a garden, but a few well-chosen implements will make your gardening job easier. A hoe, rake, spade and a dibble will be sufficient for a small backyard garden. For a larger garden, a wheel garden plow will save lots of hoeing and too, a wheelbarrow will be quite handy for the family size garden.

The hoe and rake are especially good in pulverizing the row and for use in planting. The wheel plow will find its greatest usefulness in making rows and in cultivating the vegetables as each plow comes with attachments for various cultivating jobs. For best production, cultivate often and shallow.

## Pulp Wood Contractor Encourages Good Forestry

By Robert Nonnemacher  
(Conservation Engineer, International Paper Company)  
Sam Whitfield, timber buyer and pulpwood contractor of Bay St. Louis, Mississippi, is establishing a reputation of being one of the most conservation minded operators in Southern Mississippi.

Mr. Whitfield says that in the past eleven years, in which he has been shipping an average of 500 and 600 cords of pulpwood per week to International Paper Company at Moss Point, Mississippi, he has noted a decided decrease in available timber. This has made him cognizant of the need of better forestry practices and has led him to hire a timber marker.

Forrest Summers, a native of Logtown, has been working as timber marker for Mr. Whitfield for nearly two years at this writing and was previously employed for 3 years as a timber marker for the H. Weston Lumber Company. He is well qualified by experience to determine which trees should be cut and which should be saved for future income. His duties include marking the diseased, deformed, crooked, over mature and crowded trees for removal

as well as checking behind the numerous cutting crews to make sure all precautions are taken to protect the timber being left for future growth.

Analyses of Mr. Whitfield's cutting operations shows that more than 80% of all timber cut by him is selectively marked the remainder is cut to the seed tree specifications of the Mississippi Forest Harvest Act which requires 4 ten inch seed trees four inch saplings per acre must be left to insure re-stocking of the land. A small part of the cutting is clear cutting of acres which are to be cultivated or used for pasture.

### TO PRESENT EASTER PROGRAM

The fourth, fifth and sixth grades of the Bay Central School will present an Easter Program March 24, in Bay High auditorium at 1:45 p. m. Parents and friends are cordially invited to attend. The program is as follows:

1. The Meaning of Easter taken from the Four Gospels—Phyllis Allison.

## CANDIDATE FOR MAYOR

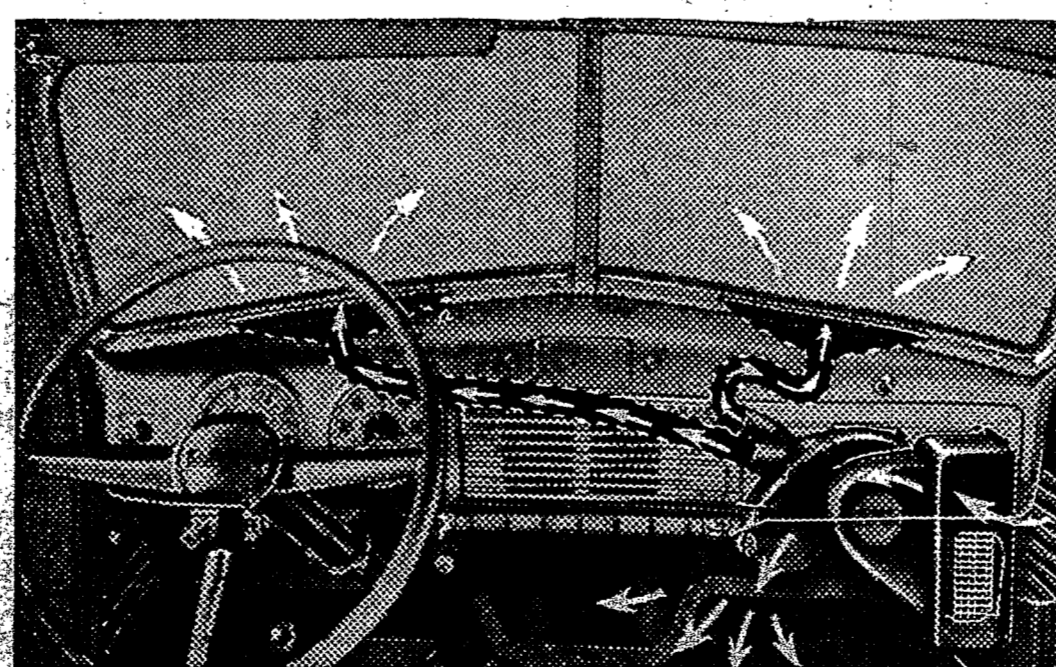

### WHAT I STAND FOR:

I am for better educational facilities. I want your children to have the opportunity of walking shoulder to shoulder with the rest of the world, regardless of their financial condition. Most important of all, they can then voice their own convictions intelligently and not be misled. By better educational facilities we may alleviate these conditions and bring our city second to none. Better educational facilities will aid in improving and preserving our Democratic City and we can progress with the world. By education and education alone can these things be accomplished.

Sincerely yours,

EARL F. RAMOND

## COLMER HEADS DIXIE GROUP

Out raged by President Truman's Civil Rights Program, 76 Congressmen from 11 Southern States met in a conference and agreed to fight "to a finish" the program of anti-Southern legislation providing for anti-poll tax, anti-lynch, F. E. P. C., and anti-segregation laws. They unanimously chose Congressman Wm. M. Colmer, Democrat of Mississippi as their Chairman, and authorized him to appoint an Executive Committee of 11 men to work with him. The Executive Committee, reading from left to right, are: Howard W. Smith, (Va.), J. Bayard Clark (N. C.), James P. Richards (So. C.), Robert L. F. Sikes (Fla.), William M. Colmer (Miss.) Chairman, Eugene E. Cox (Ga.), Oren Harris (Ark.), Secretary, Sam Hobbs (Ala.), and Ed Gossett (Tex.).

## Mrs. John McCraney Addresses Bay Waveland Garden Club On Flower Arrangement

Junior Club Of Taylor School Represented At Meeting—Work Of Club Displayed—Mrs. Tom Adams Addresses Club On Work Of Coast Council Of Garden Club

Mrs. John McCraney was guest speaker at the meeting of the Bay-Waveland Garden Club held Thursday of last week at the home of Mrs. M. A. Gilmore. Mrs. McCraney talked on the mechanics of Flower Arrangement and gave constructive criticism of the flower arrangements entered by the members. Mrs. Walter J. Gex's arrangement of a breakfast tray won the blue ribbon.

Mrs. Leo W. Seal was presented with a Camellia bush of the debutante variety in recognition of her generous hospitality in opening her home for the Heirloom Tea which was sponsored by the club.

For some time the club has concentrated on the organization of junior clubs in the schools and high schools. Thursday's meeting was the newly organized Taylor School junior club, which is the only active unit, though others are being organized. The Taylor school club had elected as their representative Robert Phillips, and he and John Floyd, the President, Mrs. W. W. Stockstill, principal of the School and Mrs. Wilson Wittenberger, sponsor for the club, were present.

After short talks by the boys the work of the club was displayed. Each member had selected a flower and made a poster of it and each had built a peep show box in which was seen a planted garden.

A special guest of the club was Mrs. Tom Adams of Pass Christian, president of the Mississippi Gulf Coast Council of Garden Clubs, who made a short talk on the work of the council. She announced that

## How To Cut Your Pulpwood Timber

By ROLAND WESTON

There are three general ways in which a farmer can cut his timber for pulpwood. These are:

First—Selective Cutting  
Second—Seed Tree Cutting  
Third—Clear Cutting

As usual with different methods each has its good points and its bad points. Each farmer must decide for himself which way suits him best. But if he is wise he will get the advice and assistance of his County Agent and Extension Forester before coming to a final decision.

The majority of Foresters believe that the Selective Method is the best for this section of the country and the Clear Cutting System is the worst. In fact no forester would recommend Clear Cutting unless the farmer expected to turn the land into pasture or cultivated crop land. To point out the good and bad features of each way of cutting pulpwood I will list them below.

**Selective Cutting.**  
In Selective Cutting the farmer or extension Forester goes out to the timber and marks it with whitewash or by blazing the tree with an axe for the pulpwood man to cut. For a

stand that has never been cut, 25% or more of the trees are marked for cutting. The idea is to cut and take out the diseased and crooked trees and to thin the stand sufficiently so that the remaining trees will grow faster. By using this method the farmer can repeat his cutting about every five years.

The advantage is that the farmer has a crop of trees that is always growing and he can cut some of them every few years which in a way is like milking a cow. This will guarantee the farmer a permanent cash income every few years indefinitely. The farmer in an emergency can borrow on such a stand because all banks will more readily make a loan on timbered land than on cut-over land.

The only disadvantage is that this method does not give the farmer the largest immediate cash income. At present an overwhelming majority of Government and Private Foresters recommend this form of cutting pulpwood timber.

**Seed Tree Cutting.**  
Seed Tree Cutting can best be described by saying that all trees are with the exception of 6 to 8 trees per acre which are 8 inches in diameter and larger. The trees that are left are well spaced over the land so that when they bear seed the seed will be well scattered.

The advantages of this method is that the farmer gets nearly all the cash possible from the land while leaving it in a condition where a new crop of trees can be grown again.

The disadvantage is that the farmer has to wait 15 to 20 years for a new crop of trees to grow.

**Clear Cutting.**  
We have all seen land that has been clear cut for pulpwood so no one should have to be told that it means removing every merchantable tree from the land.

The only advantage to this method is that it gives the farmer the largest amount of cash that he can get at one time.

The disadvantage is that there is no timber left for reseeding the land and as a Forest Resource it is ruined. It means that the present owner will have to wait 25 years or

## "Solid protection, Mary"

"It looks like just a pretty piece of paper, Mary, this policy in the Life Insurance Company of Georgia. But there is a lot behind it. • First there is the integrity of a grand old company that for 56 years has known a sure and steady growth. There are more than three million of us who own \$475,520,289 worth of Life of Georgia protection. The Statement of Condition shows how sound the Company is. Insurance in force increased \$56,554,028 during the past year. And assets increased 26 per cent. The company has policy reserve funds of \$18,174,612. In addition, Capital, Surplus, and Voluntary Reserve funds for the further protection of policyholders amount to \$10,433,763—this is over and above all liabilities and legal requirements. Last year the company paid to policyholders and beneficiaries \$6,534,674. • These figures mean a lot of protection for our family, Mary... if anything should happen to me."

\*"NITRO" — Friend of Farmers — points out an amazing fact that should interest every Mississippian...

...and \$300,000,000 in BUSINESS TRANSACTIONS!!

IN 1947 Mississippi farmers lost \$75,000,000 at last year's farm prices because they could not get an adequate supply of nitrogen to fertilize their crops. And when our farmers lose that kind of income, everyone loses—business, commerce, and industry—in fact, every citizen—indirectly—since farm income turns over FOUR TIMES! That, in round figures, is a loss to Mississippi of \$300,000,000 in business transactions!

**NITROGEN** fertilizer must be made available to Mississippi farmers in order to promote higher crop productivity. An intelligent agricultural and industrial development plan—a new basic industry that will provide an abundant supply of low-cost, high-yielding nitrogen fertilizer—is on its way to meet this important need!

Watch your local newspapers and listen to your local radio stations for further details about how Mississippi can increase its farm income up to 20 per cent at any price level!

## EVEN Splinters ARE IMPORTANT...

Mississippi's lumber industry is important in many ways, to many people. Millions of cords of Mississippi lumber are going into the markets of the world...into housing, furniture and a host of other products that people want and need. Lumber is making jobs, paying wages and providing income to thousands of Mississippi people. But like other natural resources, lumber would be of little value unless it were put to use for the benefit of mankind.

Natural gas, too, would be worthless or wasted unless it were made available for use. Its importance as an efficient, low cost fuel is gained only after it is gathered, processed and transported to places where it is needed. This is the job being done by the United Gas companies. We regard it as practical conservation, for it stimulates industrial development, creates jobs and benefits every family in Mississippi.

UNITED GAS . . .

## LUMBER INDUSTRY

Basic products of lumber and timber in Mississippi in 1946 were valued at \$135,462,000. The more than 1,500 establishments in the industry employed 23,080 persons, paid salaries and wages of \$42,268,000. Free Enterprise helped to build the success of this great industry in our state...Free Enterprise, which shares its benefits with all the people in Mississippi.

# Payrolls Not Permitted In Hancock County

As a fellow citizen, I ask you whether or not you would want the above caption to be broadcast all over the country.

Still, by your civic inactivity and lack of community interest you invite this indictment.

To get down to the particular case I have in mind,—cards were mailed out in ample time to every member of the Hancock County Chamber of Commerce, notifying them of the regular meeting to be held in the Courthouse at 7:30 P. M. Thursday, March 11th.

The score of attendance at this meeting was myself and three other members. I later learned that most of the members not attending spent the evening at a boxing tournament at Bay High. The business I wanted to discuss with the FULL membership, pertained to bringing to Bay St. Louis and Hancock County a small factory, that would employ 25 to 30 men.

This factory IS GOING TO LOCATE on the Coast. They like our community which is strike one in our favor. Some community will land this plant. We probably will not, due to the apathy of the business people.

If it suits you,—and I do not subscribe to the spirit in any manner,

—Let's not help support the Chamber of Commerce. Even if we do pay our dues, let's avoid the meetings. After all we are just grown up boys and we must have our fun, even at the expense of our very economical existence. But,—for Pete's Sake,—Let's not walk the streets, mumbling to ourselves and to others, that Hancock County never gets anything with a payroll to locate here. Do you know the reason? If you don't, I'll tell you.

Other communities elect their officers for their civic organizations, and especially their Chambers of Commerce, then get in there and pitch with them,—not just sit back and expect a miracle to happen. There is any number of business men in this community, that I hold in high regard and esteem,—yet I cannot help but condemn them for their defeatist attitude, for their lack of civic pride and sense of HOME TOWN OBLIGATIONS, just because in the past, quarrels and squabbles in these local organizations have frustrated their own ideas and ideals. Forget it Pals for after all there is more involved in the advancement of any community than politics and sports events. We are pretty well wrecked as it is,—if ever there was a time that we need to get down to earth, find ourselves and live up to the teachings of Brotherly Love,—all pull together for a common cause—that TIME IS NOW.

### Stanislaus Wins State Boxing Tournament

The St. Stanislaus Rockchaws, given only an outside chance against Biloxi, walked away with the State Ring Championship Saturday night with a total of 32 points. Biloxi, fighting valiantly to keep the championship that they almost consider as belonging to them, had a total of 31 points.

The tournament, showing before over flowing crowds, was the greatest seen in many years. The cheering crowd Saturday night was the largest in State boxing history, with an estimated 200 fans being turned away. The people were literally hanging from the rafters.

The Rocks won the team trophy and the lightweight division trophy, with Biloxi taking the heavyweight division plaque.

Individual champions in the senior division, which begins with the 90 pound weights, were presented with gold engraved belt buckles. Winners in the junior division received a golden glove.

Second place winners were presented with medals, with third place being awarded a glove.

In the Saturday night finals, the last two bouts on the card were the deciding bouts. Both were in the heavy division, with Stanislaus needing one win to take the team crown. The crowd sensed the importance of the next bout. S. S. C. wasn't considered as having an outside chance in either fight.

Ray Benvenuti of Stanislaus coming up for the fourth bout of his career stepped into the ring to face an opponent who had hung a TKO on him two weeks earlier in Biloxi. In the first round Benvenuti was hurt by a hard right to the head and three straight rights to the stomach, and looked for a second as if he was going down. He weathered the storm and returned to his corner with local fans conceding his fight as lost.

The first thirty seconds of the second round were fought on even terms, but in those few seconds Benvenuti found himself. Ray sailed into Farrel, with the ferocity of a wild bull and hit him with everything but the water bucket and stool. Farrel was knocked out cold with forty five seconds of the round remaining, but never went down. In the third round Benvenuti started where he left off and finally knocked Farrel's nose flat. The referee stopped the fight with one minute to go. This was probably the worst beating any fighter ever took

#### THIRD PLACE WINNERS HONORED

The winners of third place consolation bouts held Saturday afternoon were awarded gold boxing gloves for the big part they played in making the tournament such a success.

Winners were:

70 lbs.—Kospawa, Biloxi, by forfeit over Bloodworth, GCMA.

75 lbs.—Cole, Bay High, over Smolich, GCMA.

80 lbs.—Clayton, Demonstration over Kilpatrick, GCMA.

90 lbs.—Cavalier, Biloxi, over Brewster, Demonstration.

95 lbs.—Simons, Stanislaus, over Dickerson, Demonstration.

100 lbs.—Vodopija, GCMA, over Savoy, Biloxi.

106 lbs.—Piazza, Stanislaus, over Logan, Demonstration.

112 lbs.—Noto, Bay Hi, over Cade, Progress.

118 lbs.—Ward, Biloxi, over Smith, Demonstration.

126 lbs.—Linton, Demonstration, over Newman, Biloxi.

135 lbs.—Murray, Demonstration by forfeit over Chandler, GCMA.

144 lbs.—Smith, Demonstration over Daigle, Stanislaus.

155 lbs.—Machin, GCMA, by forfeit over White, Demonstration.

165 lbs.—Holden, Demonstration over Jordan, GCMA.

180 lbs.—Martini, GCMA, over Cawles, Progress.

### Drippings From The Gravy Bowl

The Rock-A-Chaws won 4 first places, 6 second places, and 2 third places in the ring tourney.

Bay High accounted for 4 first places and 2 third places.

Mills of Stanislaus put up the fight of his life in thrashing Burdine of Biloxi in the finals. Local supporters were fearful for Bobby but he entered the ring with a job to do—and Brother, he did it.

Incidentally, Mills informed Coach Dick Thames after the fight that he was good and ready for the promised steak.

After each of his wins Ray Benvenuti climbed into the stands for—shall we say a present. Boy-Oh-Boy, that certain SHE really picked a winner.

Re those two reversed decisions—Mr. Referee is just a human being after all. The hot fights and cheering crowds had him as nervous as you were. He had his points tallied correctly under the right name but not knowing the different boys and their schools he just pointed in the wrong direction.

All four of Bay High's fights in the finals were against Stanislaus boys. There was no booing or other untoward actions. Supporters of both schools were really on good behavior. No further quibbles can be entertained by anyone as to the fine relationship between the schools.

Coach Dick Thames of Stanislaus, who tips the scales at about 230 lbs. swears he lost more weight during the tournament than any of his boys. Dick did a fine job, and congratulations are in order.

Enough quail could be raised in the wild state, within the City Limits of Bay St. Louis and Waveland to keep the hunting land of the county well stocked. They would be a source of joy to home and property owners, and housewives other interested people could keep them well fed. Don't think that hunting could be allowed, however,

### Game Warden Bourgeois Has 25 Pairs Of Quail To Be Released In County

**Scarcity of Birds Alarming to Hunters—Food And Adequate Cover Must Be Provided—Program Of Education and Organization May Be Solution**

Last Sunday morning Game Warden Randolph Bourgeois received twenty five pairs of quail from the State Game and Fish Commission to be released in Hancock County. This is, in a small way, a heartening situation.

Along this line however, let it be remembered that when native stocks of game cannot stand the pressure, an outside stock that is strange to this section must not be expected to fill the bill.

Experts say there are enough na-

tive birds, turkeys, deer and squirrel left to give each sportsman a reasonable amount hunting, provided they have a decent chance to live and raise their young to maturity.

A long time program must be worked out between hunters and farmers. Food must be planted and adequate cover provided for quail. The pressure of fire, sheep, goats, hogs and cattle does not leave food or cover for any kind of game.

An organization to work with the State Game and Fish Commission, the County Game Warden and the sportsmen seems to be a must. The Soil Conservation Service, which maintains an office in Bay St. Louis, has a fine game management program that fits in with its overall program. The Soil Conservation program for game is not being used to advantage by County hunters. The answer seems to be no organization.

Ads in sporting magazines offer quail at \$5.50 a pair. In the last few days at least twenty people have expressed a willingness to buy a pair. This is fine indeed, but without food and cover they cannot multiply.

A few small patches of peas, lespedeza, and many other plants too numerous to name can be planted through the cut over lands to furnish food. They must be fenced against domestic stock. Prevention of fire will furnish plenty of cover and a large amount of food.

Then there is the problem of education. The instilling into everyone the facts of game management and protection. Getting all people conscious of the situation. People would then have a protection complex, and the game-hog and out of season hunter would be over ridden by an aroused public.

One game warden cannot control three thousand hunters and fishermen. The public must help with funds and time.

Miss Gita Grayson, Mr. Sidney Prendergast and friends were over for a picnic at Bayou Caddy Sunday.

Mr. and Mrs. Ben Guarino and Mr. and Mrs. R. Folse of Gulfport, Miss., were over visiting Mr. and Mrs. J. P. Rousseau, who have recently moved into their new home on Oak Street.

Mr. and Mrs. H. L. Wesner, Jr. and son Harry and Mr. Ashley Wesner, spent the week end with Mr. and Mrs. H. L. Wesner, Sr., at their home on Forrest Avenue.

Mr. and Mrs. Lawrence Kern, Sr. and grandson Larry-Boy were over for the week end.

Mr. and Mrs. Wallace Colley, are busy rebuilding the old homestead which they will occupy in the near future.

Mr. Ben Peterson has been on the sick list. All his friends wish him a speedy recovery.

The Clermont Harbor Primary grades will have a program of entertainment at the school house on Thursday, March 25th at 7:30 p. m.

The Bodge Boys are now in their new home at Bayou Caddy.

Mr. R. J. Ladner just returned from Akron, Ohio, having made the trip north by plane, and returned by auto. His sister Mrs. Beulah Potts whom he visited returned with him and will spend a few days in Lakeshore. The trip was very interesting, notwithstanding the snow and ice encountered.

## COUNTY AGENT NOTES

March is here and it is "gardening time." It is time to open the backyard vegetable store now. Don't wait. Some vegetables must be planted this month or it will be too late for best production.

Mississippi needs 450,000 farm and city gardens this year. You are being depended on to grow one of these Freedom Gardens, if you have available space.

In his proclamation declaring next week, March 14-20, as "Plant-A-Garden Week" in Mississippi Governor Wright said:

"Whereas, The health and strength of the American people can best be

guaranteed by an adequate food supply; and

"Whereas, In time of peace, the increased needs of food for war-devastated countries and our people living in cities and congested areas will continue to tax the American food supply; and

"Whereas, To further assist the peace effort and to increase food production so vitally needed to meet 1948 goals; now

"Therefore, I, Fielding L. Wright, Governor of the State of Mississippi, do hereby proclaim the week of March 14 to 20, 1948, inclusive, as 'PLANT-A-GARDEN WEEK.' Everyone on farms and in towns throughout Mississippi, who has suitable space and food production facilities, should

take part in the National Food Production Program in 1948. New production records were made in 1947, and larger goals must be met in 1948. I hereby appeal to Farmers to meet their 1948 goals; City people to volunteer for work on farms and in processing plants, and city people and farmers to grow a Freedom Garden for an adequate supply of vegetables for the table, for canning, storage and other uses."

### Garden Literature

There are a number of leaflets and bulletins available at the county and home agents' offices to help you with your gardening. From these publications you can get advice on when, and how, and what to plant, and how to fertilize, control insects and harvesting and storing.

A monthly Garden, Fruit and Flower Guide is also available at the Agent's offices.

### Community Gardens

How about the vacant lot or field at the edge of town or near you? It would be an ideal spot for several small gardens. If you don't have space for a garden, why not see the owner about renting a small area. The small rent you might have to pay would be over shadowed by the cut in your grocery bill.

Think of the advantages of a community garden: 1) They offer a chance to have a garden to people without an available plot. 2) The inexperienced gardeners profit from working near experienced gardeners. 3) They create competition to "out-do" the other fellow.

4) The county agent, home agent or some experienced gardener can visit the garden plots without extra travel and give the gardener the benefit of their experience and advice. 5) Seed and fertilizer may be bought on amounts large enough for all the gardens in the lot at a saving to the gardeners.

Chairman, Hancock County Democratic Executive Committee.

## Veterans' News

Service for Southwestern veterans on their GI Insurance is now on a current basis, D. C. Pray, Director of Insurance in the Dallas Branch Office of the Veterans Administration, said this week.

Elimination of wartime backlogs together with greatly improved service is prompting thousands of veterans in this area to reinstate lapsed insurance originally issued to most persons serving in the armed forces during World War II, Pray said.

He revealed that reinstatements of GI policies in the Dallas Branch Area (Texas, Louisiana and Mississippi) now amount to about 5,000 per month with a face value of approximately \$30,000,000. This is the highest rate of reinstatement since the war ended.

Veterans have until July 31 to reinstate lapsed term policies under present liberal regulations.

"Premiums received by the Insurance Service at Dallas are now deposited within 24 hours after they reach our Collections Unit and are normally entered on individual premium account cards within 48 hours thereafter," Pray said.

"Receipts for these premiums are mailed promptly to veterans, and the notice for the next premium due is issued at least ten days before the first of the following month."

The only cases presently involving delays in the Dallas Office are for those veterans whose records are in another VA Branch Office, Pray said.

"In such cases," he explained, "We are expediting the transfer of records from other parts of the nation, and notifying veterans concerned that a final reply to their insurance inquiry will be made as soon as the records are received in Dallas."

Pray requested that any veterans in this area who have not received explanations for delayed service, to write to him personally at the Dallas Branch Office, marking their letters "Personal and Confidential."

A—Where Veterans Administration dental clinic service is not feasibly available, the VA has adopted the policy that any veteran entitled to out-patient dental care at the expense of VA may choose any dentist participating in the program of dental care of veterans.

Q—If a veteran contracted a disease or was injured in line of duty while he was in service is the line-of-duty determination, as made by departments of the Armed Services, binding on Veterans Administration?

A—No. However, the record of the Service Departments generally will be accepted in determining line-of-duty status of diseases and injuries, unless considerations and legal presumptions of the various laws warrant a different finding.

Q—Does the age of World War I and World War II veterans affect the amount of compensation or pension paid to them?

A—Compensation is not affected but pension for non-service-connected permanent, total disability is increased upon reaching age 65.

FORESTS GREEN  
PROGRAM

The towering mountains of smoke normally seen in Mississippi during March and April are sure to be reproduced in many sections again this year, states S. E. Moreton, Jr., Chairman of the Keep Mississippi's Forests Green Program. These fires occurring during springtime when nature is striving to reproduce all plant life and make our entire landscape beautiful and useful can be charged almost entirely to human carelessness of a lack of knowledge or appreciation of nature's kindness to mankind.

Damage from forest fires in this state are estimated to cost the people some eight or ten million dollars annually and destroy some fifty percent of the potential tree crop of tomorrow. U. S. Forest Service reappraisal shows that we are now depleting our forest considerably faster than in previous years. This means that we are now

going to be forced to curtail our output of forest products or grow more wood to offset this cycle of depletion.

To Keep Mississippi's Forest Green and productive is the job of every citizen of the State. School children have been organized into Forest Ranger and Forest Guardian Clubs. Newspapers and radio stations have given graciously of their time and space and many individuals and groups have sponsored programs to inform the public of the many benefits to be derived.

Here is a real challenge to the people of Mississippi: the farmer, the woodsman, the sportsman and just the everyday average individual. The pine trees produced a magnificent crop of seed last fall, the winter rains have prepared these seed for a billion dollar crop in the years just ahead, if you the custodians of these baby trees will only protect them from a tragic and certain death by Forest Fires.

The Mississippi Forestry and Chemo-murgic Association sponsors of the State Tree Farm System, has for

James S. Rea, 97 Years of  
Age, Dies at Wesson, Miss.

Mr. and Mrs. E. P. Kirkpatrick returned on Tuesday from Wesson where they had been called because of the death of James S. Rea who died on Friday, March 12 at a Jackson Hospital following a case of pneumonia. His funeral was held at Wesson on Sunday afternoon from his residence.

Mr. Rea was the father of the late George R. Rea of this city and had a wide circle of friends here. He was a native of Hazlehurst and had lived in Wesson for the past 75 years. He had recently celebrated his 97th birthday. His wife the former Miss Betty Rembert of Hazlehurst preceded him to the grave two years ago.

Mr. Rea has been vice president of the Wesson Bank for many years and held that office until his death. He was a member of the Presbyterian church and an elder of his home church. He was superintendent of the Sunday School for 60 years. A fine Christian gentleman with a capacity for taking the hard things of life with Christian fortitude.

He is survived by his three daughters, Mrs. George Walker of Stoneville, Mrs. A. W. Garner, State College and Miss Decima Rea of Wesson; three sons, Robert Rea, president of Wesson Bank; Rembert and Frank Rea of Longview Texas.

Miss Julie Elliott Student Nurse Commended in "Espirit De Corps"

The following article appeared in one of the recent Espirit De Corps, publication of Hotel Dieu Sisters' Hospital in the Student Sketches.

"Julie Elliott, alert, quick-thinking, petite hails from Bay St. Louis, Mississippi. She is president of the Intermediate 1 Class, 1949.

Julie's grades are outstanding in all classes. She is a graduate of St. Joseph Academy in Bay St. Louis, where she was valedictorian of her class and class president for two years. She has just completed her three months' psychiatric course at De Paul Sanitarium where her marks were excellent. All at Laboure Hall welcome her back.

Julie's sweet and quiet personality and her charming smile have placed her among the most loved girls in school. Her winning ways are also appreciated by her patients. When she completes her 3 years basic nursing course, she plans to return to Bay St. Louis, but she has not as yet decided which phase of nursing she will undertake."

years advocated protecting our forest from fire and using common sense ways of harvesting timber and has pointed the way of growing more wood means more jobs, more stabilized industries to support communities, counties, towns and the entire state.

"SLAVE GIRL"

In Technicolor With  
Yvonne DeCarlo And  
George Brent

"Slave Girl," has emerged as an elaborately and expensively produced burlesque of a film of high adventure.

As such it has the added benefit of Technicolor which emphasizes the elaborate costuming and expensive sets which give a touch of realism to a picture concerned with a Tripolitanian legend of the 1800's.

It has a cast filled with such exploitable names as Yvonne De Carlo, George Brent, Broderick Crawford, Albert Dekker, Andy Devine, Arthur Treacher, and others. And, finally, it has an element of suspense, scenes of dancing girls, which the camel says he doesn't mind a bit, and a hint of romance which for the most part, is a one-sided affair on the part of Mr. Brent.

Directed by Charles Lamont from an original screenplay written and produced by Michael Fessier and Ernest Pagano, the story concerns Brent as a government agent sent to Tripoli with a treasure to pay ransom for 10 American sailors held by a tribal potentate. There he is hoodwinked by the seductive Miss De Carlo and loses the treasure. From there the story tells of their adventures as they try to escape from the tribal chief and their final success as they lead his tribe into a desert battle with a warring tribe—a battle which is disastrous to both sides.

As an adventure picture it is never quite believable, as a comedy it never quite gets out of the slapstick stage, but as a combination of both it has its amusing moments and should provide most audiences with a few chuckles.

## Three Graduates Of St. Joseph Academy Receive Habit Of Sisters Of St. Joseph

March 19 will be a red letter day in the annals of St. Joseph Academy, Bay St. Louis. For the first time in her history she will have the honor Friday, of seeing three of her daughters clothed in the habit of the Sisters of St. Joseph.

The religious ceremony of Reception will take place in the Chapel of the Sisters of St. Joseph in New Orleans, at ten o'clock, today.

His Excellency Archbishop Rummel is scheduled to officiate at the ceremony. Ten young ladies will receive the holy habit.

The three candidates from St. Joseph Academy, Bay St. Louis, are Miss Lily Mae Donlin, Miss Patricia Favre and Miss Norma Garcia.

Miss Lily Mae Donlin is the daughter of Mr. and Mrs. John J. Donlin formerly of Biloxi. Miss Donlin was a boarder for six years and graduated in 1946 as Salutatorian of her class.

Miss Patricia Favre is well known in Bay St. Louis. She is the daughter of Mr. and Mrs. Forrest Favre of this city. She too is a member of Class '46 among whose members she was outstanding for her

sportsmanship and for her genial, sunny disposition.

The third representative of St. Joseph Academy is Miss Norma Garcia. She is the daughter of Mrs. Ethel Garcia of Bay St. Louis. Norma was graduated in May 1947 with the highest honors and was Valedictorian of her class.

The ceremony of clothing was preceded by a ten day retreat given by Reverend Father Kearns, S. J. Following their reception of the habit the young ladies will spend a year of intense religious instruction at the close of which they will be eligible for the pronouncement of temporary vows in the Congregation of the Sisters of St. Joseph.

St. Joseph Academy is justly proud of her three daughters and the faculty and student body wish them much joy in the high vocation which they are just entering.

The Sisters chartered a special bus to convey the majority of the faculty and about thirty high school students to New Orleans for the purpose of assisting at the lovely and impressive ceremony of reception.

## Garden Pilgrimage Sponsored By Coast Council Of Garden Clubs To Visit April 11th

As preparations develop garden lovers are promised much pleasure from the individual garden pilgrimage sponsored by the Mississippi Gulf Coast Council of Garden Clubs. The plan is to make this pilgrimage an annual affair with all residents of the area taking part in a program to make more widely known the beauty spots of the Gulf Coast.

Opening at Waveland, Bay St. Louis and Pass Christian on April 11th, then to Long Beach and Gulfport on April 18th, Biloxi and Ocean Springs on April 25th, and ending at Pascagoula and Moss Point on May 2nd, it will afford opportunity for visiting many gardens along the route.

Appropriate markets will be placed along the highways and hostesses will be in each garden to guide and answer inquiries of visitors.

All the churches have been invited to decorate their altars, during the pilgrimage as a reminder to give thanks for the blessings of floral beauty that are particularly ours.

Mrs. Leo W. Seal, chairman at Bay St. Louis will be glad to list your garden, large or small, if you should like to share it, phone her for details and do so right away that it may be included in the routine plan. Won't you join in this program to boost the Coast's biggest asset, its BEAUTY.

## Little Theatre Members Urged To Send In Their Dues Before March 31st

Plans For New Home To Be On Display Nights Of Play of "Yes, My Darling Daughter"—Hurricane Party To Be Held on April 3rd—Over \$1800.00 of Prizes To Be Awarded in Drawing

Twelve more days left to submit your new or old Little Theatre memberships.

"Yes, My Darling Daughter" is in rehearsal and will be produced March 31st, and April 1st and 2nd and promises to be the biggest hit produced to date.

All checks have not yet been received, and unless your membership reaches David McDonald before the opening of the play, the price will be \$1.20 per play.

The success of the building fund depends on two things—membership tickets and the sale of the raffle tickets. Have you seen Mr. John Lachin's drawing of the new Little Theatre building? It's a honey. This drawing—enlarged and in water colors by Reese Spangenberg will be on display all three nights of the play and at the hurricane party.

We are certain everyone in town wants the Little Theatre to complete their plans for this modern attractive new building. It will not be a definite asset to Bay St. Louis, and will enable them to put on bigger and better productions.

Now is the time for you to demonstrate your interest in the Little Theatre. Sit right down now and send them a check for \$5.00 and then rush to diBenedetto's and buy yourself as many raffle tickets as you can manage. Have you looked over all these prizes carefully? There are over 100 prizes which have been given by local merchants and their value is over \$1800.00.

This is the way the raffle will work:

For each prize there will be a separate drawing—and each person, as they buy their tickets will have their name on the duplicate ticket stub, so that it will not be necessary for you to be present at the party to have an equal chance to win a prize. This drawing for prizes will take place at the Hurricane Party, at St. Joseph Academy Gymnasium on April 3. This will be a costume party—come as you were the day of the hurricane. Reservations are pouring in for this party. Have you made yours? Call up your friends and make arrangements for a table and then call Mrs. Kernan at Phone 774 for your reservation.
